Toxicity for Dekko silverfish paks

Summary Toxicity Information for the Active Ingredients in this Product

For detailed chemical information click on the chemical names below

Active Ingredients	Percent	<u>PAN Bad Actor Chemical</u> ¹	<u>Acute Toxicity</u> ²	<u>Carcinogen</u>	<u>Cholinesterase Inhibitor</u>
--------------------	---------	--	------------------------------------	-------------------	---------------------------------

Chemical Name

Developmental or Reproductive Toxin

Endocrine Disruptor

Acute Aquatic Toxicity

 Boric acid

20.0 %

Not Listed

Slight

Not Likely

No

Indicates high toxicity in the given toxicological category.

Indicates no available [weight-of-the-evidence](#) assessment. For additional information on toxicity from scientific journals or registration documents, see the "Additional Resources for Toxicity" section of the chemical detail page for each active ingredient.

1. **PAN Bad Actors** are chemicals that are one or more of the following: highly acutely toxic, cholinesterase inhibitor, known/probable carcinogen, known groundwater pollutant or known reproductive or developmental toxicant. NOTE! Because there are no authoritative lists of Endocrine Disrupting (ED) chemicals, EDs are not yet considered PAN Bad Actor chemicals.

2. The acute toxicity reported here is for the pure active ingredient only and may not reflect the acute toxicity of individual pesticide products. The acute toxicity of this product can be found in the Product ID section of this page, the [Acute Hazard Warning Label](#).

**TOTAL NET
WEIGHT**
0.024 oz.

ECONOMICAL • EASY TO INSTALL

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs.

Do not open or crush paks. Place two to three paks in each infested area. Place in closets, drawers, bookcases, in basement and dark hidden places. Also in areas where silverfish inhabit, under house and in attic if possible. When DEKKO Silverfish Paks are used as the only treatment, control may not be obtained from three days to four weeks, depending upon conditions. Repeat treatment as necessary to affect and maintain control. Replace every three to four months from date of purchase.
