

FRANKLIN
PEST SOLUTIONS

**& THE BUG
GIRLS**

NATURE PROGRAMS FOR KIDS!

Grades
K-3rd

Through community and education we all thrive together. By educating and empowering youth to make environmentally conscious decisions, we can make the world a better place.

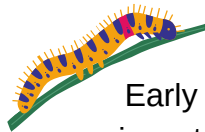

All About Honey Bees

Beekeeper uniform demonstration with beekeeping equipment and real paper wasp nest. Lessons on types of stinging insects and pollination.

Make-and-Take Critter Craft Workshop

Seasonal insects and animal crafts with the Bug Girls. Each participant goes home with their craft and some other goodies.

Biology of Bugs

Early Childhood level demonstration of insect biology and metamorphosis. Live Madagascar Hissing Cockroaches and lesson on overcoming fear of insects and encouraging nature exploration.

Mascot Appearances

Our beloved honeybee mascot, Zippy, would love to buzz in for high fives, hugs, photos and friendship!

We pride ourselves on creating engaging ways for children to connect with nature and build their love for science. Contact our marketing team for more information on our nature lessons and activities above, or to schedule a virtual or in-person visit.
