

FRANKLIN™ & **THE BUG GIRLS**
PEST SOLUTIONS

present:

STEM PROGRAMS FOR KIDS!

**Grades
K-3rd**

Through community and education we all thrive together. By educating and empowering youth to become citizen scientists and make environmentally conscious decisions, we can all make the world a better place.

All About Honey Bees

Beekeeper uniform/equipment interactive demonstration. Lesson on the difference between honeybees and other stinging insects. Demonstrations of the inside of real paper wasp nest. Discussion about the importance of protecting our pollinators.

Make-and-Take Critter Craft Workshop

Seasonal insects and animal crafts with the Bug Girls. Each participant goes home with their craft and some other goodies.

Biology of Bugs

Early Childhood level demonstration of insect biology and metamorphosis. Observing and holding live Madagascar hissing cockroaches. Lesson on overcoming fear of insects and encouraging nature exploration.

Mascot Appearances

Our beloved honeybee mascot, Zippy, would love to buzz in for high fives, hugs, photos and friendship!

We pride ourselves on creating engaging ways for children to connect with nature and build their love for science. Email our marketing team at emailus@franklinpestsolutions.com for more information or to schedule a visit.
