

**FRANKLIN**  
PEST SOLUTIONS

**Grades  
K-3rd**

**STEM  
Programs  
for Kids!**

Through community and education we all thrive together. By educating and empowering youth to become citizen scientists and make environmentally conscious decisions, we can all make the world a better place.

### All About Honey Bees

Beekeeper uniform/equipment interactive demonstration. Lesson on the difference between honeybees and other stinging insects. Demonstrations of the inside of real paper wasp nest. Discussion about the importance of protecting our pollinators.

### Bug Biology

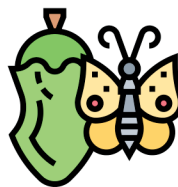

Early childhood level demonstration of insect biology, life cycles and metamorphosis. Observe and hold live Madagascar hissing cockroaches. Lesson on overcoming fear of insects and encouraging nature exploration.

### Critter Craft Workshop

Craft seasonal insects and animals with the Bug Squad while discussing habitats! Each participant goes home with their craft and other goodies.

### Mascot Appearances

Our beloved honeybee mascot, Zippy, would love to buzz in for high fives, hugs, photos and friendship!
